

iWash® quickly reduce the cost of cell counting:

The cost savings obtained by recycling disposable slides show a rapid reduction pattern. Washing a slide only four times enables staggering 80% of cost savings.

Each slide can be washed as many as 20-50 times. Washing slides 20 times will enable 95% cost savings as well as 20 times reduction in the amount of plastic waste produced compared to not washing.

A pile of used slides VS re-used slides of equivalent number of cell counting

1000 used slides

Only 20 re-used slide
